INDEX TO VOLUME 42. 1977

Journal of Speech and Hearing Disorders

AUTHOR INDEX

Abahazi, Dennis A., and Herbert J. Greenberg, Clinical Acoustic Reflex Threshold Measurements in Infants. 514–519.
Abkarian, G. G., The Changing Face of a Discipline: Isn't it "Romantic?" 422–435.
Andrews, Moya L., and Shelley S. Madeira, The Assessment of Pitch Discrimination Ability in Young Children. 279–286.
Archer, Lynda A., Blissymbolics—A Nonverbal Communication System. 568–579.
Arndt, William B., A Psychometric Evaluation of the Northwestern Syntax Screening Test. 316–319.
Aronson, Arnold E. (See DiSimoni, Frank G.)

Baehr, Elsa Telser (See Madison, Diane Peterson)
Baltaxe, Christiane A. M., and James Q. Simmons, Bedtime Soliloquies and Linguistic Competence in Autism. 376–393.
Bartlett, Susan (See Liles, Betty Z.)
Bazell, Marti (See Madison, Diane Peterson)
Beasley, Daniel S. (See Manning, Walter L.)
Beattie, Randall C., Brad J. Edgerton, and Dion V. Svihovec, A Comparison of the Auditec of St. Louis Cassette Recordings of NU-6 and CID W-22 on a Normal-Hearing Population. 60–64.
Bess, Fred H. (See Schwartz, Daniel M.)
Bess, Fred H., and Thomas H. Townsend, Word Discrimination for Listeners with Flat Sensorineural Hearing Losses. 232–237.
Betsworth, Anne (See Dirks, Donald D.)
Beukelman, David R., and Kathryn Yorkston, A Communication System for the Severely Dysarthric Speaker with an Intact Language System. 265–270.
Bisantz, Jane (See Duffy, Robert J.)
Blood, Gordon W., and Melvin Hyman, Children's Perception of Nasal Resonance. 446–448.
Bloodstein, Oliver, *Invited Article:* Stuttering. 148–151.
Bloom, Lois (See Lahey, Margaret)
Bower, Deborah (See Dirks, Donald D.)
Bumpas, Terri C. (See Paynter, Earlene Tash)
Byrne, Margaret C., *Invited Article:* A Clinician Looks at the Northwestern Syntax Screening Test. 320–322.

Campbell, Thomas F. (See Manning, Walter H.)
Chapey, Roberta, Seymour Rigrodsky, and Eleanor M. Morrison, Aphasia: A Divergent Semantic Interpretation. 287–295.
Coleman, Ralph O., and Rodney O. Pelson, Marked High-Frequency Hearing Loss in Children: A Problem in Early Identification. 335–339.
Collins, Michael (See Wertz, Robert T.)
Connell, Phil J., Joseph E. Spradlin, and Leija V. McReynolds, Some Suggested Criteria for Evaluation of Language Programs. 563–567.
Costello, Janis M., Programmed Instruction. 3–28.
Costello, Janis M. and Joanne M. Onstine, *Letter:* Reply to Ratusnik and Ratusnik. 136–137.
Costley, Marian Sheehan (See Sheehan, Joseph G.)

Audiology

Auditory Disorders

The Performance of Children with Auditory Perceptual Disorders on a Time-Compressed Speech Discrimination Measure (Walter L. Manning, Kathleen L. Johnston, and Daniel S. Beasley) 77–84.
Time-Compressed Speech Discrimination in Central Auditory Disorder: A Pediatric Case Study (Mary Lee Oelschlaeger and Daniel Orchik) 483–486.
Word Discrimination for Listeners with Flat Sensorineural Hearing Losses (Fred H. Bess and Thomas H. Townsend) 232–237.
Use of Performance-Intensity Functions for Diagnosis (Donald D. Dirks, Candace Kamm, Deborah Bower, and Anne Betsworth) 408–415.

Auditory Testing

The Assessment of Pitch Discrimination Ability in Young Children (Moya L. Andrews and Shelley S. Madeira) 279–286.
Bekesy Comfortable Loudness: Supportive Case Studies (Daniel J. Orchik, D. Creig Dunckel, and M. C. Culbertson) 126–129.
Clinical Acoustic Reflex Threshold Measurements in Infants (Dennis A. Abahazi and Herbert J. Greenberg) 514–519.
A Comparison of the Auditec of St. Louis Cassette Recordings of NU-6 and CID W-22 on a Normal-Hearing Population (Randall C. Beattie, Brad J. Edgerton, and Dion V. Svihovec) 60–64.
Effects of Sophistication on Four Tests for Nonorganic Hearing Loss (Deborah A. Monro and Frederick N. Martin) 528–534.
Effects of Stimulus Intensity on Speech Perception by Deaf Children (Norman P. Erber and Linda H. Witt) 271–278.

Electrophysiologic Response Audiometry: State of the Art (Paul Skinner and Theodore J. Glattke) 179–198.
The Fletcher Method (*Letter:* J. D. Harris) 137–138.
Marked High-Frequency Hearing Loss in Children: A Problem in Early Identification (Ralph O. Coleman and Rodney O. Pelson) 335–339.
Relationships Between Comfortable Loudness Levels for Speech and Speech Discrimination in Sensorineural Hearing Loss (Judd Posner and Ira M. Ventry) 370–375.
Reliability of Hearing-Impaired Children's Responses to Oral and Total Presentations of the Test of Auditory Comprehension of Language (Julia M. Davis) 520–527.
The Reliability and Validity of the Comfort Level Method of Setting Hearing Aid Gain (Brian E. Walden, Gerald I. Schuchman, and Roy K. Sedge) 455–461.
Response to Harris (*Letter:* Jess Dancer, Ira M. Ventry, and Wathina Hill) 138.
Split-Half Reliability of Two Word Discrimination Tests as a Function of Primary-to-Secondary Ratio (Daniel M. Schwartz, Fred H. Bess, and Vernon D. Larson) 440–445.
Time-Compressed Speech Discrimination in Central Auditory Disorder: A Pediatric Case Study (Mary Lee Oelschlaeger and Daniel Orchik) 483–486.
Tympanometric Assessment of Eustachian-Tube Patency in Children (Michael F. Seidemann and Gregg D. Givens) 487–497.
Use of Performance-Intensity Functions for Diagnosis (Donald D. Dirks, Candace Kamm, Deborah Bower, and Anne Betsworth) 408–415.
Visual Reinforcement of Head-Turn Responses in Infants Under 12 Months of Age (John M. Moore, Wesley R. Wilson, and Gary Thompson) 328–334.
Word Discrimination for Listeners with Flat Sensorineural Hearing Losses (Fred H. Bess and Thomas H. Townsend) 232–237.

Hearing Aids

An Earmold for the Geriatric Patient (Martin R. Navarro) 44–46.
A Hearing Aid Malfunction Unit (Ross J. Roeser, Aram Glorig, George M. Gerken, and Roger Kessinger) 351–357.
The Reliability and Validity of the Comfort-Level Method of Setting Hearing Aid Gain (Brian E. Walden, Gerald L. Schuchman, and Roy K. Sedge) 455–461.
A Remotely Activated Tactual Communication Aid for the Hearing Impaired (David W. Sparks) 416–421.

Rehabilitation

Reliability of Hearing-Impaired Children's Responses to Oral and Total Presentations of the Test of Auditory Comprehension of Language (Julia M. Davis) 520–527.
A Remotely Activated Tactual Communication Aid for the Hearing Impaired (David W. Sparks) 416–421.

Other

Report Writing in the Medical Setting: Some Special Considerations (*Letter:* Margaret F. Taylor) 581–582.

Speech Pathology

Aphasia

Another Technique for Teaching the Laryngectomized Person to Inject Air for the Production of the Esophageal Tone (*Letter:* Gardner Gateley) 311.
Aphasia: A Divergent Semantic Interpretation (Roberta Chapey, Seymour Rigrodsky, and Eleanor M. Morrison) 287–295.
Base-10 Programmed Stimulation: Task Specification, Scoring, and Plotting Performance in Aphasia Therapy (Leonard L. LaPointe) 90–105.

Comment on Article by Wertz, Messert, Collins, Rosenbek, and Kao (*Letter:* Patricia Loesche) 580–581.
Comment on "Spouses' Understanding of the Communication Disabilities of Aphasic Patients" (*Letter:* Audrey L. Holland) 307–308.
Comment on "The Efficacy of Cueing Techniques in Broca's Aphasia" (*Letter:* James R. McDearmon) 582–583.
Communicative and Cognitive Deterioration in Dialysis Dementia: Two Case Studies (Diane Petersen Madison, Elsa Telser Baehr, Marti Bazell, Robert W. Hartman, Sakharam D. Mahurkar, and George Dunea) 238–246.
The Efficacy of Cueing Techniques in Broca's Aphasia (Russell J. Love and Wanda G. Webb) 170–178.
Extended Comprehension Practice Applied to an Aphasic Patient (Deanie Kushner and Harris Winitz) 296–306.
A Funny Thing Happened on the Way to the Conclusion: A Reply to Smith (*Letter:* Robert J. Duffy, Sandra Reimer Ulrich, and Jane Bisantz) 133–135.
Patterns of Dysfunction in Schizophrenic Patients on an Aphasia Test Battery (Frank G. DiSimoni, Frederic L. Darley, and Arnold E. Aronson) 498–513.
Reply to Holland's Comment on "Spouses' Understanding of the Communication Disabilities of Aphasic Patients" (*Letter:* Joseph W. Helmick, Toshiko S. Watamori, and John M. Palmer) 308–310.
Response to Dabul and Bollier's "Therapeutic Approaches to Apraxia" (*Letter:* Elizabeth Ives Field) 311.
A Retrospective View: Aphasia (*Invited Article:* Frederic L. Darley) 161–169.
Reply to McDearmon (*Letter:* Russell J. Love and Wanda G. Webb) 583.
Right-Hemisphere Language Dominance in a Case of Left-Hemisphere Arteriovenous Malformation (Robert T. Wertz, Bernard Messert, Michael Collins, Jay C. Rosenbek, and Chun C. Kao) 106–112.
Some More "Remarkable" Aspects of "A Comparison of Impairments in Verbal Comprehension, Speech, Reading, and Writing in Adult Aphasics" (*Letter:* Aaron Smith) 130–132.

Apraxia

Effect on Phoneme Duration Control of Three Utterance-Length Conditions in an Apractic Patient (Frank G. DiSimoni and Frederic L. Darley) 257–264.

Articulation

Articulation Disorders: From Prescription to Description (*Invited Article:* Harris Winitz) 143–147.
Automatization of Correct Production at Two Levels of Articulatory Acquisition (Walter H. Manning, Marcia L. Wittstruck, Rebecca R. Loyd, and Thomas F. Campbell) 358–363.
A Cineradiographic Investigation of Children's w/r Substitutions (David P. Kuehn and J. Bruce Tomblin) 462–473.
Comment on Article by Costello and Onstine (*Letter:* David L. Ratusnik and Carol Melnick Ratusnick) 135–136.
A Communication System for the Severely Dysarthric Speaker with an Intact Language System (David R. Beukelman and Kathryn Yorkston) 265–270.
Communicative and Cognitive Deterioration in Dialysis Dementia: Two Case Studies (Diane Petersen Madison, Elsa Telser Baehr, Marti Bazell, Robert W. Hartman, Sakharam D. Mahurkar, and George Dunea) 238–246.
Effect on Phoneme Duration Control of Three Utterance-Length Conditions in an Apractic Patient (Frank G. DiSimoni and Frederic L. Darley) 257–264.
Imitative and Spontaneous Articulatory Assessment of Three-Year-Old Children (Earlene Tash Paynter and Terri C. Bumpas) 119–125.
Programming for Articulation Modification (Adele Gerber) 29–43.
Reply to Ratusnik and Ratusnik (*Letter:* Janis M. Costello and Joanne M. Onstine) 136–137.
Response to Dabul and Bollier's "Therapeutic Approaches to Apraxia" (*Letter:* Elizabeth Ives Field) 311.

Stimulus Picture Identification in Articulation Testing (Patricia A. Mullen and Robert L. Whitehead) 113–118.
A Therapeutic Model for Communicative Disorders among Children Who Speak Black English Vernacular (Harry N. Seymour and Charlena M. Seymour) 242–256.

Cerebral Palsy

Blissymbolics—A Nonverbal Communication System (Lynda A. Archer) 568–579.

Cleft Palate

Children's Perception of Nasal Resonance (Gordon W. Blood and Melvin Hyman) 446–448.

Language Delay

Bedtime Soliloquies and Linguistic Competence in Autism (Christiane A. M. Baltaxe and James Q. Simmons) 376–393.
Blissymbolics—A Nonverbal Communication System (Lynda A. Archer) 568–579.
The Changing Face of a Discipline: Isn't it "Romantic?" (G. G. Abkarian) 422–435.
A Clinician Looks at the Northwestern Syntax Screening Test (*Invited Article:* Margaret C. Byrne) 320–322.
A Comparison of Two Spanish Tests of Receptive Language (Rubina Rueda and Joseph A. Perozzi) 210–215.
Judgments of Grammaticality by Normal and Language-Disordered Children (Betty Z. Liles, Martin D. Shulman, and Susan Bartlett) 199–209.
The Occurrence of Disfluencies in Language-Disordered School-Age Children (Penelope K. Hall) 364–369.
On Facilitating Spontaneous Talking in Young Children (Robert D. Hubbell) 216–231.
The Performance of Children with Auditory Perceptual Disorders on a Time-Compressed Speech Discrimination Measure (Walter L. Manning, Kathleen L. Johnston, and Daniel S. Beasley) 77–84.
A Psychometric Evaluation of the Northwestern Syntax Screening Test (*Invited Article:* William B. Arndt) 316–319.
Reply to Arndt and Byrne (*Invited Article:* Laura L. Lee) 323–327.
Reply to Meyer (*Letter:* G. W. Larson and Pat Summers) 310.
Response to Larson and Summers (*Letter:* Neil N. Meyer) 310.
Some Suggested Criteria for Evaluation of Language Programs (Phil J. Connell, Joseph E. Spradlin, and Leija V. McReynolds) 563–567.
A Therapeutic Model for Communicative Disorders among Children Who Speak Black English Vernacular (Harry N. Seymour and Charlena M. Seymour) 247–256.
The Verbal Environment of a Language-Impaired Child (Nancy S. Cramblit and Gerald M. Siegel) 474–482.

Mental Retardation

Bioelectronic Measurement of Nasality in Trainable Mentally Retarded Children (David A. Daly) 436–439.

Stuttering

Communicative and Cognitive Deterioration in Dialysis Dementia: Two Case Studies (Diane Petersen Madison, Elsa Telser Baehr, Marti Bazell, Robert W. Hartman, Sakharam D. Mahurkar, and George Dunca) 238–246.
Confrontation in the Treatment of Stuttering (Evelyn G. Gendelman) 85–89.
Facilitating Transfer and Maintenance of Fluency in Stuttering Therapy (Richmond Hanna and Neville Owen) 65–76.

Further Considerations in Facilitating Transfer and Maintenance of Fluency (*Letter:* Joseph A. Stigora) 449.
The Occurrence of Disfluencies in Language-Disordered School-Age Children (Penelope K. Hall) 364–369.
A Reexamination of the Role of Heredity in Stuttering (Joseph G. Sheehan and Marian Sheehan Costley) 47–59.
Stuttering (*Invited Article:* Oliver Bloodstein) 148–151.
Treatment and Generalization Effects in an Experimental Treatment for a Stutterer Using Contingency Management and Speech Rate Control (Roger J. Ingham and Ann Packman) 394–407.

Voice

Another Technique for Teaching the Laryngectomized Person to Inject Air for the Production of the Esophageal Tone (*Letter:* Gardner Gateley) 311.
Bioelectronic Measurement of Nasality in Trainable Mentally Retarded Children (David A. Daly) 436–439.
Children's Perception of Nasal Resonance (Gordon W. Blood and Melvin Hyman) 446–448.
Have the Major Issues in Voice Disorders Been Answered by Research in Speech Science? A 50-Year Retrospective (*Invited Article:* G. Paul Moore) 152–160.

Other

Another Technique for Teaching the Laryngectomized Person to Inject Air for the Production of the Esophageal Tone (*Letter:* Gardner Gateley) 311.
Blissymbolics—A Nonverbal Communication System (Lynda A. Archer) 568–579.
Comment on Article by Wertz, Messert, Collins, Rosenbek, and Kao (*Letter:* Patricia Loesche) 580–581.
Disorders of Nonverbal Communication (C. Woodruff Starkweather) 535–546.
Patterns of Dysfunction in Schizophrenic Patients on an Aphasia Test Battery (Frank G. DiSimoni, Frederic L. Darley and Arnold E. Aronson) 498–513.
Report Writing in the Medical Setting: Some Special Considerations (*Letter*: Margaret F. Taylor) 581–582.
Right-Hemisphere Language Dominance in a Case of Left-Hemisphere Arteriovenous Malformation (Robert T. Wertz, Bernard Messert, Michael Collins, Jay C. Rosenbek, and Chun C. Kao) 106–112.

Language

Aphasia

Aphasia Testing: A Second Look at the Porch Index of Communicative Ability (A. Damien Martin) 547–562.
Communicative and Cognitive Deterioration in Dialysis Dementia: Two Case Studies (Diane Petersen Madison, Elsa Telser Baehr, Marti Bazell, Robert W. Hartman, Sakharam D. Mahurkar, and George Dunea) 238–246.
Effect on Phoneme Duration Control of Three Utterance-Length Conditions in an Apractic Patient (Frank DiSimoni and Frederic L. Darley) 257–264.
The Efficacy of Cueing Techniques in Broca's Aphasia (Russell J. Love and Wanda G. Webb) 170–178.
A Funny Thing Happened on the Way to the Conclusion: A Reply to Smith (*Letter:* Robert J. Duffy, Sandra Reimer Ulrich, and Jane Bisantz) 133–135.
Patterns of Dysfunction in Schizophrenic Patients on an Aphasia Test Battery (Frank G. DiSimoni, Frederic L. Darley, and Arnold E. Aronson) 498–513.
Right-Hemisphere Language Dominance in a Case of Left-Hemisphere Arteriovenous Malformation (Robert T. Wertz, Bernard Messert, Michael Collins, Jay C. Rosenbek, and Chun C. Kao) 106–112.

Some More "Remarkable" Aspects of a "A Comparison of Impairments in Verbal Comprehension, Speech, Reading, and Writing in Adult Aphasics" (*Letter:* Aaron Smith) 130–132.
Time-Compressed Speech Discrimination in Central Auditory Disorder: A Pediatric Case Study (Mary Lee Oe!schlaeger and Daniel Orchik) 483–486.

Language Development

Bedtime Soliloquies and Linguistic Competence in Autism (Christiane A. M. Baltaxe and James O. Simmons) 376–393.
Blissymbolics—A Nonverbal Communication System (Lynda A. Archer) 568–579.
A Clinician Looks at the Northwestern Syntax Screening Test (*Invited Article:* Margaret C. Byrne) 320–322.
Judgments of Grammaticality by Normal and Language-Disordered Children (Betty Z. Liles, Martin D. Shulman, and Susan Bartlett) 199–209.
The Occurrence of Disfluencies in Language-Disordered School-Age Children (Penelope K. Hall) 364–369.
On Facilitating Spontaneous Talking in Young Children (Robert D. Hubbell) 216–231.
Planning a First Lexicon: Which Words to Teach First (Margaret Lahey and Lois Bloom) 340–350.
A Psychometric Evaluation of the Northwestern Syntax Screening Test (*Invited Article:* William B. Arndt) 316–319.
Reply to Arndt and Byrne (*Invited Article:* Laura L. Lee) 323–327.
A Therapeutic Model for Communicative Disorders among Children Who Speak Black English Vernacular (Harry N. Seymour and Charlena M. Seymour) 247–256.
The Verbal Environment of a Language-Impaired Child (Nancy S. Cramblit and Gerald M. Siegel) 474–482.

Other

Blissymbolics—A Nonverbal Communication System (Lynda A. Archer) 568–579.
The Changing Face of a Discipline: Isn't it "Romantic?" (G. G. Abkarian) 422–435.

The Performance of Children with Auditory Perceptual Disorders on a Time-Compressed Speech Discrimination Measure (Walter L. Manning, Kathleen L. Johnston, and Daniel S. Beasley) 77–84.
Reliability of Hearing-Impaired Children's Responses to Oral and Total Presentation of the Test of Auditory Comprehension of Language (Julia M. Davis) 520–527.
Report Writing in the Medical Setting: Some Special Considerations (*Letter:* Margaret F. Taylor) 581–582.
Right-Hemisphere Language Dominance in a Case of Left-Hemisphere Arteriovenous Malformation (Robert T. Wertz, Bernard Messert, Michael Collins, Jay C. Rosenbek, and Chun C. Kao) 106–112.

Experimental Phonetics

Instrumentation

Bioelectronic Measurement of Nasality in Trainable Mentally Retarded Children (David A. Daly) 436–439.
Tympanometric Assessment of Eustachian-Tube Patency in Children (Michael F. Seidemann and Gregg D. Givens) 487–497.

Perception

Effects of Stimulus Intensity on Speech Perception by Deaf Children (Norman P. Erber and Linda H. Witt) 271–278.

General

Diagnostic Principles

Aphasia Testing: A Second Look at the Porch Index of Communicative Ability (A. Damien Martin) 547–562.
Bedtime Soliloquies and Linguistic Competence in Autism (Christiane A. M. Baltaxe and James Q. Simmons) 376–393.
Bioelectronic Measurement of Nasality in Trainable Mentally Retarded Children (David A. Daly) 436–439.
Children's Perception of Nasal Resonance (Gordon W. Blood and Melvin Hyman) 446–448.
A Cineradiographic Investigation of Children's w/r Substitutions (David P. Kuehn and J. Bruce Tomblin) 462–473.
A Clinician Looks at the Northwestern Syntax Screening Test (*Invited Article:* Margaret C. Byrne) 320–322.
A Comparison of Two Spanish Tests of Receptive Language (Rubina Rueda and Joseph A. Perozzi) 210–215.
Electrophysiologic Response Audiometry: State of the Art (Paul Skinner and Theodore J. Glattke) 179–198.
Judgments of Grammaticality by Normal and Language-Disordered Children (Betty Z. Liles, Martin D. Shulman, and Susan Bartlett) 199–209.
A Psychometric Evaluation of the Northwestern Syntax Screening Test (*Invited Article:* William B. Arndt) 316–319.
Reply to Arndt and Byrne (*Invited Article:* Laura L. Lee) 323–327.
Reply to Meyer (*Letter:* G. W. Larson and Pat Summers) 310.
Response to Larson and Summers (*Letter:* Neil N. Meyer) 310.
Stimulus Picture Identification in Articulation Testing (Patricia A. Mullen and Robert L. Whitehead) 113–118.
A Therapeutic Model for Communicative Disorders among Children Who Speak Black English Vernacular (Harry N. Seymour and Charlena M. Seymour) 247–256.
Tympanometric Assessment of Eustachian-Tube Patency in Children (Michael F. Seidemann and Gregg D. Givens) 487–497.
Visual Reinforcement of Head-Turn Responses in Infants Under 12 Months of Age (John M. Moore, Wesley R. Wilson, and Gary Thompson) 328–334.

Therapeutic Principles

Automatization of Correct Production at Two Levels of Articulatory Acquisition (Walter H. Manning, Marcia L. Wittstruck, Rebecca R. Loyd, and Thomas F. Campbell) 358–363.
Base-10 Programmed Stimulation: Task Specification, Scoring, and Plotting Performance in Aphasia Therapy (Leonard L. LaPointe) 90–105.
Comment on "The Efficacy of Cueing Techniques in Broca's Aphasia" (*Letter:* James R. McDearmon) 583.
Confrontation in the Treatment of Stuttering (Evelyn G. Gendelman) 85–89.
The Efficacy of Cueing Techniques in Broca's Aphasia (Russell J. Love and Wanda G. Webb) 170–178.
Extended Comprehension Practice Applied to an Aphasic Patient (Deanie Kushner and Harris Winitz) 296–306.
Facilitating Transfer and Maintenance of Fluency in Stuttering Therapy (Richmond Hanna and Neville Owen) 65–76.

Further Considerations in Facilitating Transfer and Maintenance of Fluency (*Letter:* Joseph A. Stigora) 449.
Imitative and Spontaneous Articulatory Assessment of Three-Year-Old Children (Earlene Tash Paynter and Terri C. Bumpas) 119–125.
Programmed Instruction (Janis M. Costello) 3–28.
Programming for Articulation Modification (Adele Gerber) 29–43.
Response to Dabul and Bollier's "Therapeutic Approaches to Apraxia" (*Letter:* Elizabeth Ives Field) 311.
Some Suggested Criteria for Evaluation of Language Programs (Phil J. Connell, Joseph E. Spradlin, and Leija V. McReynolds) 563–567.
A Therapeutic Model for Communicative Disorders among Children Who Speak Black English Vernacular (Harry N. Seymour and Charlena M. Seymour) 247–256.
Treatment and Generalization Effects in an Experimental Treatment for a Stutterer Using Contingency Management and Speech Rate Control (Roger J. Ingham and Ann Packman) 394–407.
